**Background:**

In FY 18-19, AMT finalized a pavement condition survey with data collected in 2018.

**Current:**

According to Council's Road Maintenance and Acceptance Policy (attached) adopted in 2020, Pavement Condition Studies should be conducted every 2-5 years. This study is conducted in efforts to prescribe the ratings and most appropriate treatment options for Village streets so Council can adequately plan. Staff is presenting the attached proposal for Council to consider for a new condition survey in this fiscal year. This data will also help better prepare for future discussions and deliberations of General Obligation Bonds for road purposes.
